ADOBE CC 2019 SOFTWARE LOG-IN PROCEDURE

In order to utilize the Adobe Creative Cloud (Adobe CC) 2019 software installed by the college for this class, (this includes Photoshop, Illustrator, After Effects and more), you will need to follow the steps listed below:

1. **ON THE MAC** - In the prompt that appears at start-up, click on **OTHER**. Log in to your in-class student workstation using your MyMacomb username and password. **DO NOT CLICK ON STUDENT.**

   ON THE PC - In the prompt that appears at start-up, click on **OK**.

2. Launch the Adobe application of your choice.

3. In the Adobe CC log-in window that appears, enter your MyMacomb username *(full email - **EXAMPLE**: artymcartist@myemail.com).* **Leave the password field blank and click on SIGN-IN.**

4. The window will re-direct you to the MyMacomb Enterprise log-in window. Again, enter your MyMacomb username and password and press **ENTER/RETURN or click on SIGN-IN**.

   You are now logged in to Adobe CC, and your Adobe application of choice should launch, be active, and available to use. You can launch, utilize, and quit any of the Adobe CC applications without re-logging in to each application each time.

5. **ON THE PC** - When finished for your session, log out of Adobe CC by choosing **Sign Out (you)** under the help menu of any Adobe CC application.

   ON THE MAC - When finished for your session, log out of your in-class student workstation before leaving by clicking on the **Apple Icon** in the top-left and choosing **Log Out "you"**, or by typing **Shift-Command-Q.** You should still be logged in to Adobe CC the next time you log in to your in-class student workstation using your MyMacomb credentials.

IMPORTANT - Restarting the machine or logging out of your workstation ***will not automatically sign you out of Adobe CC.*** Classroom instructors and lab-techs are **NOT** responsible for signing out users who forget to log out before they leave the classroom for the day. *At the moment, this procedure only applies to computer labs running Adobe CC 2019 or later.*

Click on the link below to see a video tutorial on how to log in and out of Adobe CC 2019 on your in-class student workstation:
